Aurelia and Todd,

Thanks taking the time to meet with us earlier this week to chat about efforts on ESA.

As promised, attached is a table that tracks ESA regulatory actions from 2012 through 2017. Also included are each of the sets of comments that NESARC filed with the Administration on these actions. (As I mentioned in the meeting, regulatory activity has kept us very busy in recent years!)

We would be happy to answer any questions or provide additional information as you review these materials. Additionally, as we mentioned in the meeting, please consider NESARC a resource as you engage in future activity on ESA matters.

Look forward to talking with you soon.

Best,  
Jordan
