

3M is making a lot of worlds easier to breathe in.

The worlds of mining, textile, asbestos; and how about general manufacturing and painting.

A lot of necessary worlds in today's industry are surrounded with air that's not the best for breathing.

3M is helping you solve the problem.

Our disposable masks and respirators and our supplied air systems are some of the freshest clean air ideas in years.

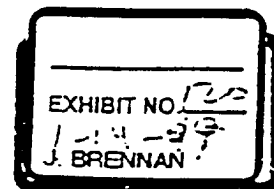

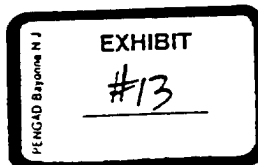

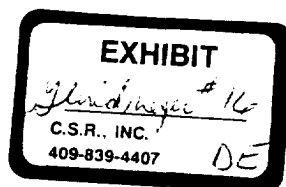

The disposable masks and respirators are lightweight, 1/2 oz. or

sive. From 15 1/2 to 55¢ each.

The 3M Brand Supplied Air Respirators and Powered Air Purifying Respirators provide cleaner air than found in most hospital atmospheres. And it can heat and air condition as well. It's easily adapted to countless uses—even welding.

Look for the Green Dot on our packages.
