Might be easier to talk. The bottom line is that the case is a challenge to an OSHA workplace exposure limit for respirable silica. It has absolutely nothing to do with EPA or with any of my duties/responsibilities as AA for air.

Subject: Question from The Hill newspaper

Mr. Wehrum,

I understand you are arguing on behalf of NSSGA on the 26th before the DC Circuit Court of Appeals in North American's Building Trade v. OSHA.

The arguments follow your nomination hearing to be assistant administrator for air and radiation at the Environmental Protection Agency. Do you see this as a conflict of interest or improper? Why or why not?
