Howard:

For your information, please find attached the note I recently sent to Rich and Otto regarding needs for closure on the Case Control study. The Case Control study is the main reason we need the cases and are extending case accrual this year. This is why I pressed the group to ask Michael to follow up with Rich.

Let me know if you have questions.

Thanks

Stuart

Dr. Irons,

The attached document spells out questions from API and the BHRC in response to your April 22, 2007 submission. We look forward to 1) your response to these questions and 2) to receiving the balance of the items which you agreed to provide in response to Mr. Cavaney's letter of April 11, 2007. Please contact me if you have any questions.
