Dear colleagues,

Attached I send you the minutes from our meeting with 3M yesterday.
If you have any additions and/or corrections, please get back to me by 3 May 2021.
I will then revise the minutes and circulate them with the presentation that 3M already
sent today.

Best regards,

for the German CA

Sendt: 27-04-2021 09:39
Bilag: 3M meeting with MSCA on upcoming EU PFAS restriction under REACH.pdf;

Dear P1 , P1 , P4 , Toke and P8 (and I copy also P6 to close the loop):

Thank you so much again for the opportunity to meet and discuss the upcoming PFAS restriction under REACH with you. As promised, I'm sharing attached the slides presented yesterday - please let me know if you still have any further questions on any of the points presented.

Regarding the immersion cooling, as we did not have the time to go into details during the meeting, we will try to send you back the answers in written in next few weeks. Alternatively, we could also have a separate call on this, potentially with one of the downstream users. Please note that 3M also provided input on data center cooling as part of the recent study on the PFAS in the Semiconductor, Electronics and Energy.

Thanks again and I wish you a nice day!

Best regards, P7

AZ: 72165/03.00854-R

Dear P19 ,

After checking with the other member states the 26th of April (there was a typo in the previous mails) from 13.00-14.30 o'clock works best for us. Colleagues from Denmark and Norway will definitely take part in the meeting. Both Sweden and the Netherlands will decide at a later stage, if they will join the meeting. Additionally, members from ECHA might join as well. As you suggested, I extended the meeting. I will forward this mail to the colleagues from the restriction group and get back to you on specific topics and questions .

Below you will find the dial-in data for the meeting:

Betreff: RE: PFAS: 3M's environmental stewardship commitment & Request for a meeting

Dear P1 ,

Thank you for coordinating this effort - I have indeed heard back from Toke Winther that he would be interested in joining our meeting in April as well. For your information, we have already set up separate meetings with the RIVM and KEMI for this week and next week. We have also received a set of extra questions from KEMI, which they would like to discuss during our separate meeting with them - some of them relate to the 'textile study', which they are responsible for and to which 3M contributed with information on our PPE products.

Since we would be doing this meeting jointly, may I suggest we do a 1,5 hour meeting (so to allow enough time for questions and discussion)? Would Tuesday 27 April at 13:00-14:30 work for both German CA and Danish CA? Please indeed send us the WebEx meeting invitation, as suggested.

May I also ask both of you to please let me know upfront if there is any particular topic/aspect you would like to discuss with us during the meeting, or any questions you might have related to the information we provided during the Call for Evidence or during individual studies that you have been responsible for (e.g. the transport

study)? This would allow me to identify the right people internally to join for the meeting.

Thank you very much and looking forward to this meeting!

Best regards, P10

Dear P19 ,

Thank you for your reply and letting us know your availabilities for the suggested dates. We suggest that we set up the meeting as a WebEx from our side.

However, there is also interest from the other member states working with us on the PFAS restriction to join the meeting to learn about your environmental stewardship commitment and the upcycling of fluoropolymers. We would like to coordinate with them to see if the suggested dates would work for the interested participants as well. Otherwise we would come back to you with a suggestion on better suited dates latest start of next week.

Best regards,

for the P14

P1 Mr. P2 ,

Thank you very much for coming back to me, and for your interest in meeting us. On your two proposed dates, we could do either Monday 27 April at 13:00-14:00 or Tuesday 28 April at 14:00-15:00.

Would you like to send us the meeting invitation, or should I do it? (if so, please let me know if there will be any further colleagues of yours participating)

Thank you & Kind regards, P7

Dear P17 ,

thank you for your Email and the offer to discuss environmental stewardship commitments in more detail, as well as to inform us about your upcycling of fluoropolymers activity in Germany.

We would like to follow up on this offer but would only be able to organise such a meeting after Easter. Maybe you could indicate your availability for the following dates:

Monday 27 April

Tuesday 28 April

In case of further questions, please do not hesitate to contact me.

Best regards,

for the P14

Dr. P3

b a u a :

Those commitments do apply also to our PFAS manufacturing sites we have today in Europe: Dyneon site in Gendorf/Germany and Zwiindrecht plant in Belgium.

I would appreciate an opportunity for a separate meeting with you to discuss our commitments in more detail, as well as to inform you about our upcycling of fluoropolymers activity in Germany and to discuss in some more detail our Novec products as part of the upcoming PFAS restriction. Would you agree to propose us a few timeslots when you could meet us?

Thank you & I look forward to our discussion.

Best regards, P7
