Dear John:

Attached is a letter I sent to you in November requesting information regarding your MSDS for Tri-Act 1801 Inhibitor. To my knowledge we still have not received a reply. I would appreciate a reply as soon as possible.

Sincerely,

Thomas G. Grumbles, C.I.H.
Environmental Quality Manager

Dear John:

Several weeks ago I discussed the exposure limit information contained on the MSDS for Tri-Act 1801 Inhibitor with a member of your staff. I still need an answer to the following.

The hazardous ingredients section lists two proprietary chemicals as product constituents. However, in the Regulatory Information section there appears to be exposure limits listed for three proprietary chemicals. Would you please provide information regarding the third chemical or review the MSDS to determine if there is a typographical error.

I would appreciate a response as soon as possible.

Sincerely,

Thomas G. Grumbles, C.I.H.
Environmental Quality Manager
