

Our free-standing filter merchandiser puts 48 of NAPA's fastest moving filters within easy reach of your customers. And to keep it fully-stocked you'll have to move fast. It contains both import and domestic filters. It's reusable. And it's free when you purchase the filters.

Order it direct from your DC by asking for part #4595. Or see it on display at the NAPA Filters booth at your Marketing Conference.
