

Europump Table

Sector/ Application/ Use	Pump and valve manufacturers either as producer or user (600 companies, 20 bio € turnover, 200.000 employees)
Pump and valve industry	Worst case 100% → if suppliers cannot deliver (also NON-PFAS products) pump and valve manufacturers will not produce anything or, in few cases, may produce in very degraded and dangerous conditions.

Industrial users/ customers	Consumers
Dependent on the application the impact on the user of the pump and valve (customer of the pump industry) may be more detrimental than on the pump and valve industry itself.	The disruption of the supply chains may lead to non-availability of essential goods.
