Stuart,

I think for planning purposes, we need to put the full amount of the balance of the SHS \$\$\$ in 06 - I think that will be about 0.8MM. We will probably have to do something to combine Aromatics/Phenol and LO. should we go ahead and propose that? I have a call with Stacy Friday morning and could raise the question.

Regards,
Patsy

All:

One last time before they finalize the budgets for 2005: Please find attached budget values that were submitted. Please check and revise if necessary your 2005 budget estimates for tox R&D. It would be nice to get this within a two weeks. Note that attachment only has totals and it would be useful to also have details, if they are readily available.

Thanks

Stuart
