

ALLIS-CHALMERS MANUFACTURING COMPANY

Milwaukee 1
Wisconsin

There is an Allis-Chalmers
representative near you.

ALLIS-CHALMERS builds four major components for heating, ventilating and air-conditioning installations—in types and sizes for any requirement. A single source of supply means skilled sales service . . . coordinated installation . . . better unit responsibility. Bulletin 25B5170 describes Allis-Chalmers equipment for heating, ventilating and air-conditioning.

ALL-PURPOSE MOTORS

A complete line of 1/2 to 200 hp motors is built by Allis-Chalmers for any requirement of speed and torque. Strong, distortion-resistant construction adds to motor life.

SQUIRREL-CAGE

WOUND ROTOR

SYNCHRONOUS

CENTRIFUGAL PUMPS

The Electrifuget

Motor and pump are built as one unit in the compact, efficient Electrifuget pump. Alignment is no problem. Has deep-groove ball bearings for all-position operation. Takes up 1/2 less space. 15 to 1600 gpm; heads to 500 ft. Bulletin 52B6059D.

Double Suction Pumps

Low Cost Pedrifuget

Motor Controls

Allis-Chalmers supplies motor controls for every requirement of operation. Reversing and non-reversing, manual or magnetic, across-the-line or reduced voltage.

Dry Type Transformers

A compact, quickly installed Class "B" insulated transformer that has proved practical in large heating and ventilating systems. Serves all circuits; all system loads.

ALLIS-CHALMERS MULTIPLE V-BELT TEXROPE DRIVES

Texrope is the trade name and registered trade mark of V-belt drive products of Allis-Chalmers, pioneer in multiple V-belt drives. Texrope drives are compact, silent, easy on bearings . . . offer speed ranges of 7.1 . . . permit use of lower cost higher speed motors. Duplex-sealed cover protects Texrope V-belt internal cords against dirt, grit, moisture. Oil-Resisting, Static-Resisting, and Oil-Proof types. Bulletin in 20B6051G.

CONSTANT SPEED DRIVES ADJUSTABLE SPEED DRIVES

Textsteel
Sheaves

Pressed steel construction. Fractional to 25 hp use.

Texdrive
Sheaves

Integrally bushed for standard shafts. Of fine grain cast iron.

Adjustable
Sheaves

60 per cent speed change with movable threaded plate.

Vari-Pitch
Sheaves

9 per cent to 28 per cent speed control for 1 to 500 hp.

Wide Range
Vari-Pitch

Speed ranges up to 116 per cent, with wide section V-belts. 1/2 to 30 hp.

Easy To Put On . . . "MAGIC-GRIP" SHEAVES . . . Easy To Take Off

Sheave slides on shaft without forcing. Easy "slide on" results in true alignment. Tightening 3 cap screws locks sheave to shaft. Use 2 cap screws in lapped holes. A twist of the wrist breaks bushing grip. Slide sheave off . . . no prying necessary.
