Dear Sir:

This is to notify you that milk from the farm of Mr. Edward Jackson, 2381 Belleflower Road, N.E., East Rochester, Ohio, 44625, has been excluded from the market because of adulteration by P.C.B. (calculated as Aroclor 1254).

We are sending Mr. Jackson notice by registered letter that his milk is excluded from the market until such time as the P.C.B. content of his milk is again below 2.5 parts per million on a fat basis. (A copy of this letter is attached for your information.)

It is to your advantage not to accept milk with this high level of P.C.B., as it will carry over into your finished products, and adulterate all products it is combined with. Acceptance of this particular milk supply would be regarded by the Ohio Department of Agriculture as to knowingly manufacture adulterated food.

Should you have any questions concerning this, or Mr. Jackson's communication please feel free to call us at 614-866-6361, extension #210.

Yours truly,

OHIO DEPARTMENT OF AGRICULTURE
