Galbraith Laboratories Inc.
PO Box 4187
Knoxville, Tenn. 37921

Attention Mr. Bill Longmire

Dear Mr. Longmire:

Confirming our conversation, I am sending you for PCB (Aroclor 1016) analysis two water samples marked as follows:

Bridgeport Influent Tap Water 9/7/76

Bridgeport Effluent (Return to Well) 9/7/76

Each sample bottle contains approximately one liter, and both are "grab" samples. The sample bottles were rinsed thoroughly, immediately before filling, with water from the stream from which the sample was taken. As a matter of information, I took additional samples simultaneously from the same stream flow, and am sending them to another Laboratory as a cross check.

Please notify me of the results as soon as convenient, and mark the invoice for my attention.

Very truly yours,

CAPACITOR DIVISION
Universal Manufacturing Corp.
