TO: SYDNEY HUPP
FROM: TOLAR NOLLEY
SUBJECT: ISNRP PROJECT- CONFIDENTIAL
DATE: APRIL 10, 2017

BY EMAIL: hupp.sydney@epa.gov

Dear Sydney:

I respectfully request setting a date immediately to meet with Director Scott Pruitt to share a project strategy that has been approved by the Commonwealth of Virginia, but has been delayed due to “agency” overreach.

This project will provide for significant gdp job growth while accelerating the health of our water quality and clarity, increase fish and reef habitat for both commercial trade and as a sustainable, renewable natural resource provider, requiring no new laws or additional funds or grants, thus being a part of reducing our nation’s debt and for national security.

This project has the support of Virginia and US Republican and Democratic Congressmen as well as both US Senators. This will help President Trump’s administration considerably.

Mr. Pruitt is in an unique position to authorize an action that will forever change the course of an important segment of our US economy while promoting the positive benefits this project brings to our environment. The time to act is now as we will explain. It is truly for all the right reasons. Please contact me asap Sydney and let’s get started.

Respectfully submitted for immediate action,

Tolar Nolley, Founder OCVA Holdings, LLC
