(Code: 16) & Rubber(Code: 17). Also to Messrs. Guthbert, Whitson, White &
Scarbrough.

FOR IMMEDIATE RELEASE

NEW YORK, MAY 22, 1963 - National Lead Company has announced two new appointments at the Hightstown Laboratories at Hightstown, New Jersey. Abb L. Scarbrough has been named assistant manager, new products development department and Edward L. White, technical head, plastics department.

Mr. Scarbrough joined National Lead in 1948 as a chemist in the organic department at Brooklyn Research Laboratories. In 1950 he became a technical representative for the new products development department and in 1961 was named technical head, plastics department. Mr. Scarbrough received his B.S. degree from the University of Alabama and his M.S. degree from Lehigh University. He is member of American Chemical Society, Society of Plastics Engineers, Society of Rheology and New York Rubber Group.

Mr. White came to National Lead as an assistant chemist in the rubber department at the Brooklyn Research Laboratories in 1945. In 1949 he was named chemist in the plastic laboratory and in 1955 senior chemist. He was made plastic laboratory group leader in 1960. Mr. White received his B.S. degree in chemistry at Queens College, New York, and his M.S. degree at Brooklyn Polytechnic Institute. He is member of American Chemical Society and New York Rubber Group.
