

1 word pneumoconiosis.

2 And as Mr. McGowan has kindly pointed out,
3 in that time period you didn't know what that word
4 meant, did you?

5 A I couldn't give you the medical definition
6 of it, no.

7 Q Sir, you worked on taking asbestos out of
8 Kaylo; is that correct?

9 A Yes, sir.

10 Q And you were told by your boss, Mr. Shannon,
11 the reason it was being taken out was that asbestos
12 was a potential health hazard?

13 A That is what he said, yes.

14 Q And in November of 1972 that, in fact, came
15 out, the asbestos-free Kaylo; is that correct?

16 A Yes, it did.

17 Q And haven't you testified in the past that
18 developing the asbestos-free Kaylo only became a
19 highest priority for Owens-Corning Fiberglas the 18
20 months before it was distributed?

21 A Well, it became a very high priority when we
