Subject: timeline

Hi David, I'm wrapping up the story about the announcement from the Department of the Interior, and I've gone through all of their press releases, but can't seem to get a good grasp on a timeline for when decisions might be made regarding the opening of parts of NPRA and ANWR. I can try to contact their media person tomorrow, but was just wondering if you had a general idea of when we might know. Even if you have a general timeline, for example, of when a piece of legislation might go to a committee, to the House, to the Senate, to the president, etc. I'm just trying to include some piece of information in the article as to when people might be able to expect further news on this matter. Thank you! Heather

Hey Heather:

I've been drinking from the proverbial fire hose ever since the Secretarial Order was signed, so I have an idea on some of your questions but not so much on others. If there is a time you can talk that might be easier - otherwise I will try to package it into an email later today.

Cheerio!
