This rather lengthy document is being forwarded not only because PCB's are mentioned (pgs. 19-23), but because it represents the kind of report that I expect the OST panel would like to issue. Pertinent are: (a) Use and Residues Analysis, product history, etc. beginning on page 5; (b) Recommendations, Pages 41-43; and (c) Appendix D A Simple Systems Model for DDT and DDE Movement In the Human Food-Chain, beginning on page 52. Note Table 2 on the last page, page 58.
