Subject: Asbestos Materials - Product Liability

From: PLA

To: Field

Info: NLG RCB THJ HHB RJHerlihy WAH ADC KAM FJJ FAK

Based on recent advice from Dave Fishman (our legal counsel) we have the following instruction for all of our field people. In the event that a customer asks you for information or advice regarding OSHA standards for handling asbestos type materials, please respond in the following fashion:

Refer all inquiries to Robert J. Herlihy for response unless the circumstance necessitates an immediate reply by you. In the latter case refer the customer to OSHA standards and suggest that he contact his workmen's compensation insurance carrier for professional advice.

If the inquiry is directed to RJHerlihy, he will see that an appropriate response is prepared and will clear with Dave Fishman when necessary.
