

1 phenol in the OH group.

2 Q. Were you informed at that meeting by
3 anyone from Dow what the affects of repeated
4 exposure of one parts per million would be?

5 MR. GORDON: Objection.

6 Q. Were you informed by anyone at Dow that
7 one parts per million with repeated exposure could
8 create a real problem?

9 MR. GORDON: Objection.

10 Q. Do you recall being informed of that?

11 MR. GORDON: Objection.

12 A. A real problem with rabbits I would think. I
13 don't recall that but again, this is in Ed Chandler's
14 report.

15 Q. When you left that meeting, was it your
16 understanding that repeated exposure of one part per
17 million would cause problems to rabbits? Is that it?

18 A. Yes.

19 Q. But not to humans?

20 MR. GORDON: Objection.

21 Q. Do you know?

22 A. Give me the question again.

23 MR. RUSSO: Would you reread the question
24 back to him, please.

25 (Question read.)
