Carl Mercer - Safety Superintendent

VINYL CHLORIDE EXCURSION SAMPLE

The results of your Vinyl Chloride exposure on 7-27-86 while disconnecting the ship TIELROAD was 4.80 ppm. You wore a fresh air mask while performing this job; therefore, this is only a potential exposure. There was no actual respiratory exposure to Vinyl Chloride.

You may make arrangements with our medical for a physical if you so desire.

A handwritten signature in dark ink, appearing to read "E. J. Singleton", is written over the typed name.
