finished up using the videotape and talking about hot spotting, and I am going to try to keep you in your seat for the rest of the direct examination.

This morning you mentioned that you had various contacts with the researchers at Mount Sinai in New York; is that right?

A That is correct.

Q Okay. Now, the jury has heard something about Mount Sinai and the research that was done there.

Are you familiar with their research?

A The asbestos-related research, a little bit.

Q When did you first become familiar with the research done by Mount Sinai?

A I believe it was in 1969 from the literature search.

Q From the literature search.

Who performed that literature search?

A From the members of the technical information section of our scientific library, so it
