DOC#: SAR016

DOCUMENT DESCRIPTION: Letter to Dr. Gardner from Vandiver Brown
with Question RE Reviewing X-Rays

Dr. Leroy U. Gardner,
Saranac Laboratory,
Saranac Lake, N. Y.

I am not clear from yours of January 8th whether you desire to review some of the X-rays of our employees or whether your request is limited to a review of the Mannheim cases. Mannheim, of course, is a factory location of the Raybestos-Manhattan Company, and perhaps you desired that I make the necessary arrangements through Mr. Simpson. On the other hand, perhaps you intended your reference to be to films taken at our Warrville plant.

Sincerely yours,

VB:y
