

November 27, 1972

Mr. Philip J. Mole'
Director of Research
City of Chicago
Department of Environmental Control
320 N. Clark Street
Chicago, Ill. 60610

Dear Mr. Mole':

This is in response to your letter of November 3
(addressed to our Lincolnwood office) concerning control of
organic solvent emissions from the printing industry.

The Du Pont Company does not currently manufacture
printing inks; however, we do manufacture a great variety of
industrial finishes and are very familiar with pollution
abatement techniques. Our experts in this field have worked
closely with our customers as well as regulatory agencies.
Practical solutions to pollution problems have evolved from
these cooperative efforts.

We would be happy to give you our comments on a
draft of your proposed regulations. Please feel free to
call on us if we can be of any other help to you in this
matter.

Very truly yours,

E. E. Swain, Jr.
Pollution Control Coordinator
