Mr. J. F. Olsen, Chemical Engineer
The Turbo-Mixer Corporation
247 Park Avenue
New York, New York

Dear Mr. Olsen:

We acknowledge, with thanks, receipt of your letter of January 24 regarding our relieving you of the sludge sample containing an appreciable amount of tetraethyl lead which you had received from one of your clients.

I am transmitting your letter to Mr. C. Wasserman, Division Manager at our Deepwater Plant, asking him to handle this matter further with you to arrange the most appropriate method of shipment.

Very truly yours,

J. H. Schaefer
