Pilots Safety Exchange Bulletin (monthly)
Business Pilots Safety Bulletin (monthly)
Mechanics Bulletin (bimonthly)
Cabin Crew Safety Exchange (bimonthly)

Among the foundation's reports and special studies are

Aircraft Fueling
Ramp Service
Problem of Bogus Parts
Collision Prevention
Accident Reports and Accident Prevention

Guggenheim Aviation Safety Center at Cornell University
Address inquiries to
R M Woodham
181 Pasadena Place
Hawthorne, N J 07506

The purpose of this safety center was to foster improvement of aviation safety through research, education, training, and the dissemination of safety studies to the industry and of air safety information to the general public Its objective was to help make flying a safer form of transportation

An independent organization started in 1950, the center was discontinued as of June 30, 1968 With the establishment in 1967 of the U S Department of Transportation with its National Transportation Safety Board (see page 351), the safety of flying on a nation-wide basis became the responsibility of a cabinet-level public body

Health Physics Society
194 Pilgrim Rd , Boston, Mass 02215

Organized in 1955 and incorporated in 1961, the HPS has as its objectives *(a)* to aid and advance health physics research and applied activities, *(b)* to encourage dissemination of information between individuals in this and related fields, *(c)* to improve public understanding of the problems and needs in radiation protection, *(d)* to initiate and develop programs for training of health physicists, and *(e)* to promote the health physics profession

Health physics is devoted to the protection of man and his environment from unwarranted radiation exposure The health physicist is a person engaged in the study of problems and practices of providing radiation protection He is concerned with an understanding of the mechanisms of radiation damage, with the developing and implementing methods and procedures necessary to evaluate hazards, and with providing protection to man and his environment from unwarranted radiation exposure

Health Physics is the official journal of the society

Illuminating Engineering Society
345 East 47th St , New York, N Y 10017

The society is the scientific and engineering stimulus in the field of lighting The work of the Industrial Lighting Committee and its numerous subcommittees for various specific industries should be of particular interest to industrial safetymen Many other projects, such as street and highway, aviation, and office lighting, may also be of interest

Through the society, safety engineers can obtain reference material on all phases of lighting, including authoritative treatise on nomenclature, testing, and measurement procedures

The society publishes a monthly journal, *Illuminating Engineering,* often of interest to the safety engineer, and the *IES Lighting Handbook,* a reference guide

The society has surveyed a number of industries and has reported its recommendations on light requirements at work areas on each operation, in accordance with its engineering studies

Industrial Medical Association
55 East Washington St , Chicago, Ill 60602

This association fosters the study and discussion of problems peculiar to the practice of industrial medicine and surgery, encourages the development of methods adapted to the conservation and improvement of health among workers, and promotes a more general understanding of the purpose and results of employee medical care

The association sponsors committees on

Standards for Medical Service in Industry,
Industrial Hygiene and Clinical Toxicology,
Problem Drinking,
Radiation,
Education and Training,
Medical Aspects of Driver Safety,
Recommended Publications in Occupational Medicine,
