Dear Bruce:

Enclosed is a complete listing of those individuals who replied to my June 13th letter regarding the establishment of a task force of VI member companies to address the issue of waste minimization as it relates to initiator jugs. It appears as though there is fairly broad interest in exploring this issue. As the letter had a June 30th response date, I'm assuming we have heard from everyone who has an interest.

When you have had a chance to review this, give me a call and we can decide on a meeting date, agenda, etc. Thanks for your assistance.

Sincerely yours,

Meredith N. Scheck
Assistant Director
