Gentlemen:

Att'n Industrial Health Section

Re: EOD-505-A. Cornelius Semon - Johns-Manville Products Corp.
Alexandria, Indiana.

We represent the Johns-Manville Products Corp. Mr. Cornelius Semon, a former employee in the blanket department claims that he inhaled dust causing disease of the lungs which affected his heart. Mr. O'Brien, manager of the Johns-Manville Products Corp. at Alexandria, Indiana, has showed me copies of a dust count made by your representative on May 28, 1934, and July 5, 1935.

I would appreciate your advising me the names of the individuals who made these counts in order that we will have all the information on hand to determine the merit of Mr. Semon's claim. I enclose a stamped envelope for reply. You have the authority of the Johns-Manville Products Corp. to furnish me with this information. Mr. A. M. Schmidt, Manager of their Insurance Department, No. 22 E. 40th St., New York City, c/o Johns-Manville Products Corp., has authorized us to procure this information.

Yours very truly,

J. J. Noble
