

Industrial Buildings and Plant Layout

Chapter 16

Design for Safety		366
Buildings, equipment, and processes	Codes and standards	
Planning checklist		
Site Planning		367
Location, climate, and terrain	Space requirements	
Outside Facilities		368
Enclosures	Shipping and receiving	Railroad sidings
Roadways and walkways	Parking lots	Landscaping
Waste disposal	Air pollution	Use of waterways
Trestles	Bins	Pits and openings
Docks and wharves		Outside lighting
Plant Layout		373
Location of buildings and structures	Flow sheet	Layout of
equipment	Electrical equipment	Ventilating, heating, and
air conditioning	Inside storage	
Lighting		378
Electrical lighting	Quantity of illumination	Quality of illumination
Glare	Safety	Hazardous locations
Protective lighting	Luminaires	Electrical
distribution systems	Maintenance	
	Light sources	
Use of Color		385
Interiors and equipment	Color-coding	Accident prevention
