

1 are not sure of the diagnosis or in which you feel
2 that you would like some backup to -- to cover your
3 posterior for the future, in fact, that is where you
4 would send the slides, because they will give you what
5 is effectively the official, official reading.

6 That is the one that really stands up.

7 Q Can you, in addition to the work you do as
8 a -- I take it your work as a pathologist in addition
9 to your administrative tasks also involves the actual
10 review of specimens and tissue samples from various
11 patients as well as doing autopsies?

12 A Oh, yes. As a matter of fact, probably 60
13 percent of my time is doing that.

14 Q Would you describe what your duties and
15 responsibilities are as a professor at Johns Hopkins?

16 A My basic responsibilities have to do with
17 teaching the medical students, teaching the residents,
18 because we have residents from Hopkins at our hospital
19 teaching them the basics of pathology and basically
20 guiding their progress and keeping them in line.

21 Q Are you licensed to practice medicine, and
