Dear Sir:-

We are representing Ethyl Gasoline Corporation in the defense of four actions brought by certain former employees of that company, who claim to have been injured by lead poisoning in connection with the manufacture of ethyl gasoline at Moraine City. Our files show that you examined a number of the men down there and devoted considerable time to the alleged lead poisoning cases.

These four cases which are now under consideration are the ones of [REDACTED] and [REDACTED]. We would appreciate it if you could advise us as to your recollection or as to your records of these four cases. Any additional information which you may be able to give will be greatly appreciated.

Very truly yours,

Craighead Cowden & Smith
