Subject: Congratulations Mr. Wheeler.

Dear Mr. Wheeler - I am enthused to see from your resume that you were an Eagle Scout, and have played an important role in protecting our economy. I hope this means that you will return the EPA to its original purpose of protecting the environment and people's lives and health. The future of the American landscape is in your hands. Climate change is not a theory, it is real, and the majority of the world's scientists and world leaders are in support of doing everything possible to lessen its cataclysmic effects. Pollution costs lives and livelihoods. Mr. Pruitt unfortunately believed none of this and was hell bent to destroy the EPA, and our environment. Don't let our children and grandchildren down. Do the right thing and put our environment first, and the oligarchs last. We are counting on you. Your era may well extend into the next presidency, which I think will not be that far off, and a new plan for our environment will serve you well to succeed.

regards and best wishes.

Robert D Freeman
North Bend, WA

"Mr. Wheeler served in a similar capacity for six years for the Subcommittee on Clean Air, Climate Change, Wetlands and Nuclear Safety. He started his career at the Environmental Protection Agency as a Special Assistant in the Pollution Prevention and Toxics office, where he received three bronze medals."
