CONSIDER THE NEW LOW PRICES ON

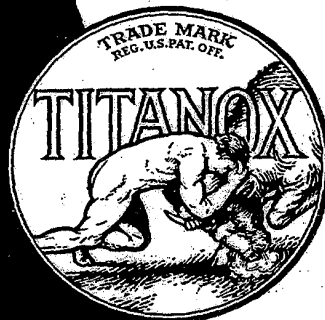

TITANOX-C

Recent price reductions on Titanox-C (calcium base) provide an exceptionally important reason why paint-manufacturers should study the various ways in which this modern pigment will reduce costs and at the same time improve quality.

Users now appreciate that Titanox-C saves grinding time. Because of its dispersive properties, it shortens the manufacturing operation. In many instances grinding has been entirely eliminated by using Titanox-C.

Here are other important reasons for adopting Titanox-C. It has high bulking value—exceptional hiding power—and the high degree of whiteness so essential to quality paints. The fast growing popularity of Titanox-C is ample proof that this economical pigment makes paint that meets the demands of the shrewdest buyers.

Write today for new low prices on Titanox-C.
Full information will be gladly furnished without obligation.
