Mr. Robert A. Kehoe
Kettering Laboratories
Cincinnati University
Cincinnati, Ohio

Dear Mr. Kehoe:

I represent a group of people in Galena, Kansas who have been devastated by lead poisoning.

Eagle-Pitcher Industries, Inc. has a plant near my clients and it has been emitting lead poisoning, zinc and sulphur dioxide for a number of years.

I recently read an article, "Lead Poisoning" by J. Julian Chisolm, Jr., which appeared in the Scientific American, February, 1971, Volume 224, Number 2. In this article Mr. Chisolm states that you have done extensive studying on lead poisoning for the past 35 years.

My clients not only have lead poisoning as evidenced by some recent tests run on them, but their animals have been dying under very peculiar circumstances.

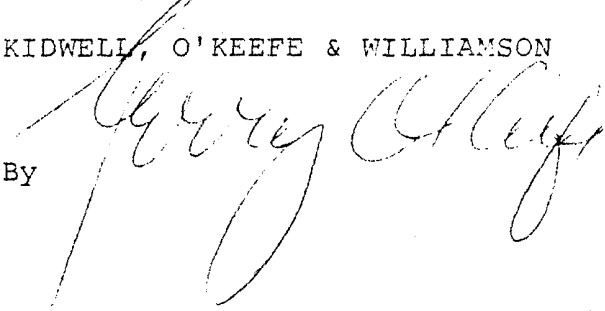

Would you be willing to help me in this case? If so, how much would you charge and what data would be available?

I would also appreciate knowing the address of Mr. Chisolm and his job title.

Any prompt consideration you can give me in this matter will be greatly appreciated.

Best regards,

KIDWELL, O'KEEFE & WILLIAMSON
