BEAUTY AND PROTECTION BY SHERWIN-WILLIAMS

There's the warmth and zest of a spring morning in a gleaming house . . . a house painted with SWP. There's a pride and contentment in living in it . . . in having your neighbors appreciate it as part of their community.

SWP is the best known and most widely used house paint in America. Years of research . . . years of testing . . . years of work . . . have established its preeminence. And those years have brought pleasure to countless Americans . . . brought beauty and protection to their homes.

All the qualities . . . the smooth, silken texture . . . the uniform mixture that brushes so easily and covers so well . . . the sun-fast colors, true-toned and durable . . . the clean, glossy surface . . . the longest life in the paint film, so important in your painting costs. All these qualities, we

repeat, are for your pride and satisfaction in your home's lasting beauty and protection.

Hours and pages could be spent telling you how Sherwin-Williams Paints—SWP for your house, Flat-Tone and Semi-Lustre for your rooms—are made, and why these are superior paints. But their best story . . . the story you are interested in . . . is told on the job. Since 1881 homeowners have agreed. Then and today Sherwin-Williams Paints were and are America's preference.

"All you need to know about paint is Sherwin-Williams." And main street or metropolis . . . city, town or hamlet . . . wherever the "cover the earth" emblem is displayed is "paint headquarters." There the Sherwin-Williams dealer will be waiting to help and to serve you.
