**Dear Edward,**

**The last time we spoke, I mentioned the possibility of initiating a program concerning health and workmen's compensation for presentation at Regional Contractors Association meetings.**

**I am happy to advise you that such a program sponsored by NIDA dealing with health and Workmen's Compensation problems encountered in insulation material handling is being prepared.**

**The program will involve a team presentation and will include discussions of asbestos, distempered earth, millins, fibrous glass and mineral wool. As the presentations are currently arranged, the program will require approximately two hours.**

**We plan to have this project finalized and ready for presentation by November 1, 1966. Jack Karamhart has all the details and will discuss the matter with you in the near future. We are confident that you will be interested and would appreciate your opinion and any suggestions.**

**I am sorry that I was unable to accept your kind invitation to participate in the Monroe meeting. I am certain, however, that presenting the NIDA program at the regional meetings will be effective.**

**Very truly yours,**

**Clifford L. Shookler  
Manager, Industrial Health**
