Mr. L. L. Jacob, Safety Engineer
Electrical and Electronics Division

January 29, 1979

Subject: Asbestos Substitutes

- References:
1. Asbestos Substitutes and Suppliers, August 11, 1978
 2. Plant Engineering Letter No. 28, April 11, 1973
 3. H. B. Lick letter to Division Safety Engineers (Asbestos Fiber Exposure from Pipe Covering and Insulation Operations -- Standard Handling Procedures) March 27, 1973

The attached references pertain to our discussion yesterday. I believe these clearly outline corporate staffs' recommendations to substitute less hazardous, non-asbestiform materials for asbestos and its products wherever feasible.

Please distribute this information to production and maintenance engineering personnel within EED who can implement this policy.

Roger L. Wabeke, Supervisor
Industrial Hygiene Services Section
Industrial Hygiene and Toxicology
Department
Employee Health Services
