intracompany memo

to Mr. R. L. McCallister location Portland
from L. K. Ryder location Stamford
subject Annual Examinations - Asbestos Workers (Akron, N.Y.) date January 10, 1977

Reference my report of visit to the Akron, N. Y. plant on 12/30/76 dated 1/10/77 and to that portion relating to the required annual examinations.

Herewith photocopies of the examination results of the last examinations of October, November 1975. Please note my notations on the McCarger report. Perhaps we shall avoid a claim here. Clarence Bluege may bear watching as possibly he is developing a problem. I would appreciate your review, comment and guidance as there appears the potential of a very high financial liability at the Akron plant.

L. K. R.
