Dear Mr. Barnhart:

In response to your letter of June 27, addressed to Mr. Werner C. Brown, enclosed are the names and addresses of executives of corporations manufacturing vinyl chloride monomer. I am sure they will give careful consideration to a request for information regarding your Environmental/Industrial Hygiene Survey being conducted under contract to NIOSH.

We appreciate your offer of copies of your survey procedures, analytic procedures and analysis results. It would also be helpful to us in identifying sources of information, that may be useful to you, if you could provide us with the Statement of Work of your NIOSH contract.

Sincerely,

Albert C. Clark

Dear Mr. Brown:

The Bendix Corporation, Launch Support Division has been awarded a NIOSH contract to perform an Environmental/Industrial Hygiene Survey of Vinyl Chloride Monomer Manufacturing Operations and Operations where Polyvinyl Chloride and Copolymers of Polyvinyl Chloride are Processed, contract number CDC-99-74-70.

The data required to make the survey a success is highly dependent on interviewing responsible personnel in six vinyl chloride monomer manufacturing plants, and the collection of air samples in a number of areas throughout the manufacturing areas.

A second survey will require the same information from as many as 27 polyvinyl chloride and copolymer processing plants.

We would greatly appreciate any assistance that you can give us in supplying the names of personnel that could grant us permission to perform the survey in vinyl chloride monomer manufacturing plants in the Houston, Texas area and New Orleans, Louisiana area.

We would also appreciate any analysis procedure information and past and present data that you have established pertaining to vinyl chloride monomer manufacturers.
