**Subject:** Re: Citizens Energy Invitation

Thanks, Tate. Citizens' CEO, Jeff Harrison, is an incredible person and leader. He also happens to have the distinction of being the first African American CEO of a major utility in Indiana. Jeff would be thrilled to host the Administrator.

**Subject:** Citizens Energy Invitation

Tate/Stephen,

I thought the roundtable event yesterday was great. Lots of accomplishments in a very short amount of time. Thank you for including me.

Per our discussion, attached is an invitation (and completed scheduling request form) from Citizens Energy's CEO, Jeff Harrison, to tour their \$2 billion tunnel project, which is the byproduct of a consent decree to improve the City of Indianapolis' combined sewer overflow system. The DigIndy project has been a great success and will significantly enhance water quality in Central Indiana.

You will be pleased to know that Citizens Energy is VOLUNTARILY exceeding the terms of the consent decree by increasing the capture rate to 99%, while at the same time reducing the project cost by \$400 million. This project is a win for the EPA, IDEM, City of Indianapolis, Citizens Energy and Hoosier ratepayers.

The DigIndy project would provide a great backdrop for the Administrator to discuss his efforts to improve water quality around the country and success of WIFIA. Below is a link to the DigIndy project for your review. There are some great pictures that will give you a better feel for the project.

Please let me know if you have any questions. Thank you for your thoughtful consideration.
