Branches and Agents: National Lead Company, New York, Buffalo, Chicago, Cleveland, Cincinnati, St. Louis, New Orleans, Boston, Los Angeles, Portland, John T. Lewis & Bros. Co., Philadelphia, National Lead & Oil Co., Pittsburgh, Georgia Lead Co., Atlanta, Gibson & Price Co., Cleveland, American Lead Corporation, Indianapolis, Morris F. Kirk & Son, Inc., New York, Lead Metals, Inc., Cleveland, International Lead & Zinc Co., London, Toronto, Montreal, Winnipeg, Vancouver.

HOMOGENEOUS LEAD-LINED EQUIPMENT

and lead-covered equipment assure perfect bonding between the lead and the other metal. There is no crawling, no buckling, no separation under vacuum, under pressure or under temperature variations close to the actual melting point of lead. Each unit is thoroughly tested before shipment.

We also manufacture a complete line of chemical lead-lined pipe, fittings, valves, coils and tank connections, as well as Hardlead acid pumps, fittings, valves, cocks and lead-covered copper pipe for steam pressure.
