New York 16, New York

Dear Joe:

So that there is no misunderstanding, Exhibit A, Supplement 3, effective February 1, 1964, was cancelled as of April 15th since it is no longer applicable in view of the completely revised set of sheets sent to you April 13th.

In the event you have forgotten the markings on these sheets, those areas where there is a blank and no figure provided and only a dash means that the item is not available from the plant under which the blank appears. Those items which are enclosed in parentheses indicate the item is not available in J.M. containers but is only available in Bestwall containers. This, of course, is because of being very limited to actually no movement of some of those items.

Very truly yours,

C. E. Abbey,
Director of Technical Services
