Re: EDC Panel Budget

In response to my telefax of March 18, 1993, it has been suggested that rather than contributing \$12,000 at this time, the EDC Panel only contribute enough funds to cover the negative balance and provide for minimal administration time. A more in-depth discussion of potential Panel activities and corresponding budget needs can occur later.

I am recommending that the Panel companies contribute a total of \$2,400. This will not only cover the negative Panel balance, the interest accrued on that balance, and administrative fees through March, it will also be sufficient for future administrative fees, so that we can avoid this situation in the near future. Please note that BFGoodrich has informed CMA that its EDC business has formed a new company, Geon Company, which will not participate in the Panel. BFGoodrich's share has been split among the remaining Panel members.

Attached for your review is your company's share of the interim budget. Please note that I intend to send out commitment forms by April 16, 1993, so if you have any problems with this approach, you must let me know immediately.

Regards,

Kathleen M. Roberts
Manager
