Dear Roy:

This is the questionnaire I am using in connection with our Vinyl Resins Study.

To date, I have examined 13 of the 17 laborers involved. I have received only a few x-ray reports, but so far these have all been negative.

If you make any extensive changes in this form, or if your review of these employees is appreciably different, please let me know so that we can stay in the same ball park.

Yours truly,
