

1           A     No.

2           Q     Was there a time that you left the Berlin  
3 plant in the '60s?

4           A     Yes, I left in September of 1968 to return  
5 back to the technical center in Granville.

6           Q     And what was the purpose of going back  
7 there?

8           A     I went back to work on projects and do  
9 research and development work on Kaylo.

10          Q     And what type of research projects?

11          A     Well, the major project at that time, Mr.  
12 Shannon brought me back to work on the replacement of  
13 asbestos in the Kaylo product.

14          Q     And what year was that?

15          A     That was 1968. I came back in September of  
16 '68.

17          Q     And what was the motivation for replacing  
18 asbestos in Kaylo?

19          A     There was concern of a potential health  
20 hazard with the asbestos involved with it.

21          Q     And did you actually find replacement for
