Carolina Terminals
Wilmington, N.C.

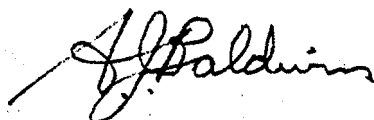

July 9, 1948

We are endeavoring to learn the history of the eight tanks at the Carolina Terminals, Wilmington, N.C. These tanks are numbered 1, 2, 3, 4, and 5 and "A", "B", and "C".

We would like to have you inquire of Jack Cole if he can remember or, if his records show, when these tanks were built, who operated them and the products stored in them.

We would like to have this information in considerable detail, if possible.

Very truly yours,

A.J. Baldwin
