Subject: Potential staffer w/ ag background
McKinney, Bradley - Resume.pdf

Hi Ryan – It's been a while. I hope you're well and surviving over there. I can't imagine what life has been like for you all.

I hear Jeff Sands is coming over to join the team. He's fantastic. Great hire.

I'm passing along a resume of another potential staffer with some ag cred in case you all are still in hiring mode. He's currently working for Mike Torrey Associates but would like to enter into the administration in some capacity. I've worked with him a bit while he's been with Torrey. He has interests and experience beyond ag and told me EPA would be where he'd love to go. In full disclosure, his dad is a Senate confirmed at USDA, so that is why he's not looking there for work.

Anyway, no pressure, but If you all are still looking for politicals to help out, he may be worth a call.

As always, if there's anything I can do to be helpful, please don't hesitate to reach out.

All the best,

Joel
