Protect your house from the weather

IT is the effect of rain, wind and sun on the unpainted parts of a house that "weathers" it—that makes it age and decay. But when a house is well painted, the tough, elastic "film" of paint shields the surface like a rubber coat protects a man.

All Fuller house paints and stains, Pure Prepared Paint, Phoenix Pure Paint, Pioneer Shingle Stain and Concrete for stucco, brick and concrete surfaces, have high protective properties as well as ornamental value. They are manufactured from formulas that are the result of 74 years paint-making experience. Fuller paint products give long, positive protection.

Get in touch with a master painter before the weather causes your house to show signs of decay. Or write to our Service Department for advice and a copy of the free "Home Service" booklet. Whatever your painting need, W. P. Fuller & Co. makes a paint for the purpose.
