Please accept the attached letter on behalf of Illinois Power Generating Company requesting a Presidential exemption under Section 112(i)(4) of the Clean Air Act (“CAA”) from compliance with the filterable particulate matter (“fPM”) surrogate emission standard for non-mercury metal hazardous air pollutants (“HAP”) and the requirement to install continuous emissions monitoring systems (“CEMS” or “PM CEMS”) under the MATS RTR for Newton Power Station Unit 1 (“Newton”). Illinois Power Generating Company is requesting a two-year exemption, beginning July 6, 2027, from these requirements for the Newton facility.

Best Regards,
