

CHEMICAL MANUFACTURERS ASSOCIATION

Vinyl Chloride Panel

Action Item Status Report

September 14, 1994

Item	GEON	Oxy	PPG	Vista	G. Gulf	Formosa	Dow	Borden
1) VCNet Map Update DUE: 12/31/94	All members should review the current map with respect to shipping points, destination points, advisory team locations, hands-on response team locations, and changes in shipping carriers and/or routes. The map will be revised in Jan. 1995.							
2) VCNet Brochure DUE: 10/7/94	J. Klimavicz will revise the brochure and send copies to Dr. Shah for distribution to the Panel for review by company legal departments.							
3) Recomm. to AAR on Standr. of Railcars DUE: 10/18/94	C. Toth will examine the AAR docket information and work with R. Wagner to clarify the history of this issue. C. Toth and R. Wagner also will determine if this issue still needs to be addressed.							
4) List of VC Railcars Currently in Use DUE: 8/31	G. Marshall is compiling a list of VC railcars currently in use. Panel members should send car information to Mr. Marshall for incorporation into the general list.							
5) Identif. of Potential Training Sites DUE: 10/18/94	B. Wronko will investigate Niagara Falls as a possible VCNet training site, and G. Marshall will explore holding a session in the fall in Corpus Christi, TX, and a possible session at an off-plant site (i.e. Shreveport, LA).							
DUE: 10/18/94	G. Marshall will revise the agenda for the one-day vinyl chloride training session for Panel review.							
6) VCNet Video Preparation DUE: 10/18/94	H. Shah will contact M. Lunsford to check on the status of the VCNet video script.							
7) Transfer Procedures for Vinyl Chloride	Panel members should bring copies of their transfer procedures for vinyl chloride to the Oct. 18 meeting for discussion purposes.							
8) Next Meeting Date	The next Panel meeting is scheduled for Oct. 18, 1994 from 9:00 a.m. to 3:00 p.m., at CMA.
