Re: Proposed Water Quality Regulations

Dear Ms. Frisone:

This firm represents Johns-Manville Sales Corporation, Certain-teed, Inc. and the Asbestos Cement Pipe Producers Association, and we have previously requested that we be given all material filed or issued in respect to the above regulations.

This is to request a copy of the proposed regulations which have been the subject of recent comment. We appreciate that these regulations have not received final review.

Very truly yours,

Susan M. Babcock
